Bachelor's Degree in Physical

Education – VRU (2018–2022)

MBA in Financial Management –

Khaje Nasir University (Started

2025)

Purpose

I love learning, because every new idea makes me a little better than yesterday. I love reading, poetry, and running — each one gives me space to breathe and think. I love trading, because it challenges me and reminds me that freedom is the real reward.

The common thread in all of this is freedom: freedom to grow, freedom to explore, freedom to live life on my own terms. My purpose is simple — to keep moving forward, becoming better every day in every aspect.

PROFILE

Finance enthusiast and stock investor with experience in equities, forex, and cryptocurrency markets. Focused on research-driven investment strategies using technical and fundamental analysis. Experienced in using AI tools to generate and refine Python code for trading strategies and financial analysis, improving efficiency and insight. Skilled in interpreting financial statements, analyzing market trends, and testing investment ideas. Strong communicator with a curiosity-driven approach to exploring finance from multiple angles.

EXPERIENCE

Independent Stock Investor & Forex Trader

2019 – Present

- Conducted independent analysis of stock, forex, and cryptocurrency markets.
- Focused on long-term stock investing using financial statement analysis.
- Applied technical analysis, risk management, and trading psychology in market evaluation.
- Explored algorithmic trading and automated trading systems.
- Used Python and AI tools for market data analysis and trading strategy experimentation.

Athletics & Music Background

- Experienced in boxing, running, volleyball, and swimming with certifications in physical fitness and coaching.
- Played traditional Iranian instruments including Setar, Tar, and Tonbak for many years.
- Developed discipline, consistency, teamwork, and creative thinking through sports and music.
